Tonnellerie
BILLON

Vincent DAMY, Billon manager and 2007 meilleur ouvrier de France.

This unique label ensures a high quality barrel's traceability, drying, technical features and respect for tradition.

Tonnellerie Billon is part of the PEFC (Programme for the Endorsement of Forest Certification) which is the world's largest forest certification system that promotes sustainable forest management.

HISTORY

Tonnellerie Billon was created in 1947 by Gaston Billon, is located in Beaune and produces premium traditional forest origin barrels, puncheons and casks (225L - 820L) sourced from different French forests.

TODAY

Tonnellerie Billon is managed by Vincent Damy, who was awarded the prestigious "Meilleur Ouvrier de France" in 2007. Tonnellerie Billon along with sister company Tonnellerie Damy form Les Tonnelleries de Bourgogne or translated "The Cooperages of Burgundy", one of the few suppliers still able to offer oak selection by forest origin.

Since 1997 barrels produced at Billon are CTB certified (fûts de traditions Française - traditional French barrels).

Renovated Billon cooperage facade.

STYLISTICALLY

TONNELLERIE
Billon
BEAUNE - FRANCE

Billon Bertranges barrel used for the Hospice de Beaune Pièce des Présidents.

Billon barrels are most well known for respecting the wine and being true to the varietal by showcasing the fruit on the nose and palate as well as offering tremendous length and enhanced minerality.

STRONG POINTS

- Forest Origin and Innovation Range of barrels
 - Forest Origins Range: Allier, Vosges, Nevers, Jura, Chatillon, Eastern European, Côteaux, Jupilles, Bertranges, Tronçais, Ardennes, and Fontainebleau
 - Innovation Range: Select, Richelieu, Côte D'Or
 - Innovation Options: Subtil, Chauffe 180 min
- Independently owned and part of Les Tonnelleries de Bourgogne
- Fire-bent or steam-bent and fire-toasted barrels
- Offers French oak barrels, puncheons, and casks (225L - 820L)

Jérôme Damy, Damy manager and 2007 meilleur ouvrier de France.

HISTORY

Tonnellerie Damy is a third generation cooperage located in Meursault, Burgundy that was founded in 1946 by M. Roger Damy and produces premium traditional forest origin barrels, puncheons and casks (225L - 860L) sourced from different French forests.

TODAY

Tonnellerie Damy is now managed by Jérôme Damy who, like his father Jacques Damy in 1976, was awarded the Meilleur Ouvrier de France award in 2007. Tonnellerie Damy along with sister company Tonnellerie Billon form Les Tonnelleries de Bourgogne or translated "The Cooperages of Burgundy", one of the few suppliers still able to offer oak selection by forest origin.

Since 1997 barrels produced at Damy are CTB certified (fûts de traditions Française traditional French barrels) which is a unique label, ensuring a high quality barrel's traceability, drying, technical features and respect for tradition.

Tonnellerie Damy is part of the PEFC (Programme for the Endorsement of Forest Certification) which is the world's largest forest certification system that promotes sustainable forest management.

Tonnellerie Damy is one of the most renowned Burgundian Cooperages. The barrels are synonymous with the world's greatest Chardonnays and Pinots and are featured in many Côtes de Beaune and Nuits domaines. The distinctive and delectable house style is the reason you will find Damy barrels in many wineries around the world.

STYLISTICALLY

Damy barrels bring an elegance to the wine, softening the tannins and providing a creamy, rounded mid palate. Supporting and enhancing the fruit, they compliment both white and red varieties with a variety of forest options.

Tradition meets technology in the Damy toasting room.

Tonnellerie Damy has exclusivity on the Hospice de Beaune Chardonnays.

STRONG POINTS

- Forest Origin and Innovation Range of barrels
 - Forest Origins Range: Allier, Vosges, Nevers, Jura, Chatillon, Eastern European, Cîteaux, Jupilles, Bertranges, Tronçais, Ardennes, and Fontainebleau
 - Innovation Range: Imperial, Exclusive, Rouge, Rouge 2, Estrella 45*
 - Innovation Options: Délicat
- Independently owned and part of Les Tonnelleries de Bourgogne
- Fire-bent and fire-toasted barrels
- Offers French oak barrels, puncheons, and casks (225L - 860L)

DAMY
MEURSAULT - FRANCE

Mathieu Maury and barrels toasting at the cooperage in Bordeaux.

Mathieu's proximity to Bordeaux has allowed the brand to position itself as a preferred partner rather than a mere provider to Bordeaux's greatest Châteaux.

Tonnellerie Maury is part of the PEFC (Programme for the Endorsement of Forest Certification) which is the world's largest forest certification system that promotes sustainable forest management.

STYLISTICALLY

Maury barrels focus on fruit purity, expression, aromatics and structure. The barrels allow the fruit to remain in focus while providing lift and fullness. They are delicate enough for a lighter vintage but have enough personality and impact to excel in warmer vintages and richer wine styles.

Château Léoville Barton represents Tonnellerie Maury's biggest customer purchasing on average 500 barrels per year.

HISTORY

Tonnellerie Maury & Fils is a traditional fourth generation cooperage that originated along the "quai des chartrons quartier" of Bordeaux in 1893. It is in this area of the city along the Garonne river that wine barrels were loaded onto ships and exported to Britain and soon after, around the world.

Tonnellerie Maury specializes in the 225L Bordeaux barrel but also makes sizes up to 500L puncheons based on different oak grain tightnesses originating from different French oak forests from the center of France.

TODAY

Tonnellerie Maury is now managed by Mathieu Maury who is a fourth generation cooper. Mathieu has a very strong reputation and image in the local Bordeaux market where 90% of his barrels are sold to Grand Cru Classé Châteaux in the region.

Finished 225L Bordeaux Chateau barrel.

STRONG POINTS

- Reputation is built on 225L Bordeaux style barrels
- Barrels are categorized on grain tightness and all of the oak comes from the center of France
- Offers barrels made with Limousin open grain oak
- Special Toast, mc^2

- Fire bent and fire toasted barrels
- Offers French oak barrels and puncheons (225L - 500L)

WINEGLOBE: *Glass Globes for Winemaking*

Wineglobes aging sauvignon blanc at Château Olivier in Bordeaux where they are used with oak barrels.

Wineglobe, produced in Bordeaux France by the Paetzold family are single pieceglass globes that range from 25L – 400L. The most popular sizes are the 115L and 220L which allow for the purest expression regarding terroir-driven wines. The Wineglobe was created in 2015 and in 2020 received the famous Vinitech Innovation Trophy award. Today, it represents the ultimate reference for a neutral, high end cutting edge vessel found in the most prestigious of cellars for the fermentation and aging of white and rosé wines and the aging of red wines.

MATERIAL

Borosilicate glass is used for making Wineglobes. It is the purest, strongest, and most resistant type of glass allowing for the globes to be inert, smooth, impermeable, neutral, and unaltered over time. Glass is an eternal, noble, and long-lasting material that has a thermal conductivity close to that of concrete, allowing for good temperature stability. The transparency of glass allows lees sedimentation, wine turbidity and malolactic fermentation to be observed and studied.

HISTORY

In 2010, Institute of Bordeaux graduate, consultant, company founder and estate owner Michael Paetzold initiated research for new containers to be used at his winery in South West France. In 2014, especially with Burgundy domaines including Meursault's Eduard Ente, Paetzold started seriously looking into glass as an aging vessel since winemakers always loved the wines aged their "demijannes". The Wineglobe came to be in 2015 and was tested through 2019 on all varietals. In 2020, the first Wineglobes were commercially sold. Today, over 500 customers are using Wineglobes in some of the most famous cellars in France and worldwide.

PRODUCTION

Wineglobes are produced at an onsite custom state of the art glass oven in Bordeaux where the quality of the craftsmanship is second to none. Unique about Wineglobes is how they are made from a single piece of glass and possess extremely winemaker friendly accessories.

Wineglobes aging pinot Noir at Clerget in Volnay where they are used with oak barrels.

POROSITY

The porosity on Wineglobes is 0% making them oxygen proof however their shape allows for the wine to stay in constant motion, be dynamic and alive and avoid being reduced.

WINEMAKING & STYLES OF WINE

Wineglobes have been shown to produce unique wines that are totally different to those fermented and aged in wood, concrete or steel vats. The natural features of the fruit, vineyard, and terroir are exposed in a way that is completely distinctive, unique and produces wines of purity and perfume. Wineglobes represent a unique tool to understand your terroir, vineyard and fruit in their purest forms and can be used interchangeably on all styles of white, rosé, sparkling base, skin contact or red wines. Due to the elimination of headspace, topping is not needed and SO₂ additions can be reduced by 25% to 50%.

Wineglobes aging Cabernet Sauvignon at Château Grand Corbin in Bordeaux where they are used with oak barrels.

Katalin Pintacsi has been at European Coopers Hungary since its creation in 1997 and oversees daily activities.

European Coopers Hungary produces premium Hungarian oak barrels that are everything you would expect from a quality-driven artisan cooper.

Kristof and his team control the entire process in house, from sourcing and selecting 100% Hungarian logs from Hungary's best forests in the Zemplen and Mecsek hills, to seasoning the staves, and producing and finishing the barrels.

STYLISTICALLY

European Coopers Hungary barrels are either coopered exclusively with oak from the forests of Tokay, Mecsek or a blend of both forests. Tokay offers elegance and a fine tannin profile while Mecsek offers phenolic richness and palate weight.

Partially owned by the Antinori family since its inception, European Coopers Hungary can be found in many noble Italian varietal programs.

HISTORY

European Coopers Hungary is a premium Hungarian cooperage that produces Hungarian oak barrels (225L - 500L). The cooperage is located two hours south of Budapest and is proud of remaining independent since its establishment in 1997. With over forty years of experience, Master Cooper Kristof Flodung has been at the heart of European Coopers Hungary since day one in 1997.

TODAY

European Coopers Hungary was co-founded by three respected Italian winemaking families that were searching for premium Hungarian oak for their wines. Vincent Bouchard is involved as a consultant on toasting and barrel technicalities.

After opening its markets and becoming part of the EU in 2004, there has been a resurgence in demand for Hungarian oak on the international wine scene.

Master Cooper Kristof between his signature Kristof barrel and a European Coopers Hungary barrel.

STRONG POINTS

- Hungarian oak barrels and a special barrel
 - Special barrel: Kristof
 - Special Toast: Radiant White and Radiant Red
- The sourcing, cutting, splitting and ageing of the wood and coopering of the barrel is all done internally
- Independently owned cooperage
- Only 3-Year air dried oak
- Fire bent and fire and convection toasted barrels
- European Coopers Hungary purchases logs from parts of the Mecsek and Tokay forests that have the FSC certificate and the Natura 2000 certificate which both promote sustainable forest management
- Offers Hungarian oak barrels and puncheons (225L - 500L)

MASTER COOPERS

HISTORY

After 36 years of passion and dedication to the cooperage business, Vincent Bouchard created his own unique recipe for American Oak barrels.

Master Coopers strives for the integration of wood and wine throughout the 5 stages of tasting: the nose, the front palette, the mid palette, the finish and what in Italy is called the “retro-gusto” where the wine comes back after drinking or spitting. The integration is balanced in a way that shows a reverence for fruit and terroir.

What distinguishes the Master Coopers brand is the unique proprietary way the barrels are toasted. The proprietary toasting process is much longer than the traditional toasting time and done at a lower flame, designed to optimize the essence of American oak while minimizing its undesirable characteristics. That means more subtle oak nuances that lift the fruit and broaden the palate; and less aggressive lactones with no overt oakiness, plankyness or dill.

Vincent Bouchard.

1% FOR THE PLANET

One Percent for the Planet is an international organization whose members contribute at least one percent of their annual sales. Master Coopers is a proud member of this program, and the support its barrel sales provides. One Percent for the Planet members assist protect land, forests, rivers, oceans and also encourage sustainable methods of energy production.

to environmental causes. Master nonprofit organizations that

STYLISTICALLY

Proprietary toast deepens and enhances finesse, elegance and length on French oak and decreases presence of whiskey lactones on American oak.

Master Coopers Produit de Bourgogne after a Slow Red Medium Plus Toast in Beaune Burgundy, Vincent's hometown.

PRODUIT DE BOURGOGNE

Working closely with a selected Burgundian Cooper with whom he has had the longest relationship, the barrels feature 100% 3-year air dry French oak from specially selected premier forests, and are available in both Slow Blue and Slow Red toasts:

- Slow Blue for Chardonnay and other whites
- Slow Red for Pinot Noir and other delicate/aromatic reds.

STRONG POINTS

- Proprietary toast for wines and different char levels for spirits
- Special Barrel: Unity
- Blending of different French forests for the Slow Red and Slow Blue French oak barrels
- State specific forests used for American oak barrels:
 - Minnesota
 - Missouri
- Available in 225L or 228L
- Fire & steam bent barrels
- 3-year air dry and tight grain available upon request
- Master Coopers USA is proud to be partnered with 1% for the Planet

SCHNECKENLEITNER
AUSTRIA

FASSBINDEREI SCHNECKENLEITNER

1
AUSTRIA

Paul Schneckenleitner in front of Weidling oak staves for puncheons and casks.

HISTORY

Fassbinderei Schneckenleitner is a fifth generation Austrian artisan family run cooperage that is located in Waidhofen/Ybbs, located in the foothills of the Austrian Alps. The cooperage was founded in 1628 and the Schneckenleitner family has been at the helm of the cooperage since 1880. Schneckenleitner produces premium quality puncheons and large format vessels and they are best known for their ovals and casks or rounds as they call them. The oak for these ovals and rounds (10 HL - 60 HL) are sourced 100% from Austrian Oak. However, the cooperage is also recently offering more Austrian Acacia, especially for aromatic whites.

TODAY

Fassbinderei Schneckenleitner is managed by Paul Schneckenleitner, who is a fifth generation Master Cooper from the Schneckenleitner family. Before managing the family cooperage, Paul gained invaluable experience by working in several Burgundy and Cognac based cooperages.

Schneckenleitner buys entire oak and acacia logs from forests they have been working with for generations. The logs are brought to their production site and the splitting, preparing and air drying of the wood is done on site. They cooper vessels made from tight grain Weidling Oak and Acacia that is sourced from forests in southern Austria.

to their production site and the Acacia that is sourced from forests in southern Austria.

STYLISTICALLY

Schneckenleitner has built their reputation on the production of their large format ovals and puncheons which are found in many of Europe's finest cellars. Because of the large format, the incredibly long and low toast, and significantly long air-drying time results in extremely low impact ovals, rounds and puncheons that respect the wine's fruit, freshness and minerality, while allowing for some natural micro-oxidation to occur. Their large format vessels work both on white and red wines.

Tight Grain Austrian Weidling oak in front of the Schneckenleitner stave mill.

Peter Schneckenleitner about to plane a log.

Cask toasting.

Schneckenleitner casks including 500L and 45 mm puncheons.

50 HL Conical operating tanks.

STRONG POINTS

- Independently family-owned artisanal cooper where all important steps are still done by hand
- Reputation built on 10HL - 60HL+ Ovals and Rounds
- Also coopers 45 mm thick stave puncheons and conicals
- Directly buys and handles logs at stave mill located at the cooperage
- Air drying of oak is done on site
- Selection of 100% Austrian Oak and Austrian Acacia
- Long air drying time for wood preparation
- House toasts are the: AOC (Austrian Oak Complex) and AOE (Austrian Oak Elegance)

SCHNECKENLEITNER
AUSTRIA

Fred and Jacques Canadell in front of a French oak log destined for stave production.

With two stave mills in France and connections to France's most prestigious forests, Canadell uses strict proprietary toasting regimens to carefully craft a complete line of oak alternatives.

Canadell oversees the entire manufacturing process of its oak alternative products for full traceability, from selecting trees in the forest to seasoning, splitting, air drying, toasting and the final packaging of the product. Canadell is part of the PEFC (Programme for the Endorsement of Forest Certification) which is the world's largest forest certification system that promotes sustainable forest management and a proud sponsor of the "ONF - AGIR" fund (Office National des Forêts - React) which is committed to the preservation of France's forests to ensure their sustainability and help mitigate the negative impacts of climate change.

STYLISTICALLY

The Canadell product line includes powder and chips for use during fermentation and post ferment aging, to dominoes and staves, which best showcase the qualities of French oak and show characters remarkably similar to barrel aging. Canadell bridges the gap between barrels and oak alternatives.

French oak tree in the Tronçais forest of France.

Oak chips

French oak dominoes

Barrel inserts through the bung

Fire toasted French oak staves

French oak staves

STRONG POINTS

- Company historically is a merrandier, ensuring control of its product line from the source: the oak tree
- Complete in house integration from when oak is cut to packaging
- Family owned and operated
- Large selection of alternative products and toast levels

- oak alternative
- Staves are evenly spaced and air dried outside in the elements for optimal ventilation and seasoning
- Fire toasted and convection toasted staves
- Chips • Dominoes
- Barrel and bung inserts
